

## LEAN ON ME (LALAH H.)

there is something about your smile  
that makes me wanna stay a while  
there is something about your touch  
that I just seem to get enough

When Im with you  
ou turn my night into day  
forever sunshine or rain  
when Im with you  
don't ever feel alone, call me at home

If You still sad about it  
times are up and you just can't see  
come on, lets talk about it  
don't you know you can lean on me  
Im Your friend, never doub it  
to the bottom of the deep blue sea  
when the chips are down , baby lean on  
me

theres is something deep inside

that seems to make me come a love  
(yeah yeah)

Its like you read my mind

You keep me satisfy, My morning, Noon or  
Night.

When Im with you

ou turn my night into day

forever sunshine or rain

when Im with you

don't ever feel alone, call me at home

If You still sad about it

times are up and you just can't see

come on, lets talk about it

don't you know you can lean on me

Im Your friend, never doub it

to the bottom of the deep blue sea

when the chips are down , baby lean on

me
